Four Barns entirely Consumed-Scarcity of Water. The most exciting fire that has visited our

city for a long time, occurred on Friday afternoon of last week. It was first discovered in a wood house attached to a barn belonging to Mr. J. Valett of Toledo, and situated on the alley extending from Main to Clover Streets. The alarm was immediately given, and the firemen and citizens hastened to the spot, but with combustible material, the fire spread rapidly to three other barns standing near, and for a time it was thought that the residence of Mr. S. Seargent, which was but a few feet from the fire, must certainly burn, and it was stripped of every article of furniture. The iouse of Judge Greene was also endangered, but by great effort both were saved. The earesty of water provented the department from rendering as efficient service as they could otherwise have done. Four barns, with s quantity of hay and grain, and a couple of setts of harness, and other articles, were desroyed. Two belonging to Mr. S. Seargent one to Judge Greene and one to Mr. J. Valett. Mr. Seargent's forniture was considerably damaged by being taken out, as is always the case when furniture is handled at a fire, and we belive that it is only under circumstances of the most imminent peril, that it is a favor to the owner to attempt to remove furniture on Monday evening, at the age of 58 years. not certainly known. Two of the burns burned were partially insured. By the experday at the family residence. Mrs. Cole was a jence at this fire we are again reminded of our tended the last annual drill.
